

Found a table that is not iFIX compatible yet? Here's what you should do.

We are able to develop and build customized iFIX accessories for use with your preferred table.

Please provide us with the following information:

1

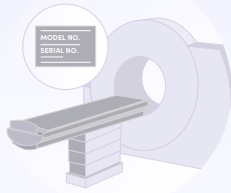

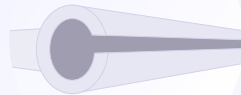

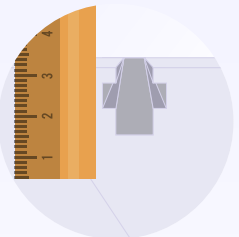

Table brand, name/model, reference number and picture of the type label.

2

Close-up pictures of any table channels.

3

Scale/ruler/caliper pictures next to the anchor slots and original mating parts in use.
